The Burnside Hospital Foundation

The Burnside Hospital Foundation was established in 1998 to provide support for the Burnside War Memorial Hospital Inc – a not-for-profit community hospital with NO government funding.

We seek donations and bequests from members of the community and private donors, as well as donations, grants and sponsorships from businesses, corporations and philanthropic trusts. We also generate income from fundraising events held from time to time, and by selling fundraising merchandise.

Our annual goal is to provide support funding for selected vital medical and surgical equipment needs at the hospital.

Our Investment Fund aims to create a permanent and increasing income stream to support the hospital's current and future needs, by attracting donations and bequests to be securely invested under strict guidelines.

Burnside Hospital Foundation uses funds raised for:

- Acquiring leading-edge medical, surgical and ancillary equipment for the Hospital, to enhance the quality of patient care.
- Supporting building redevelopment and refurbishment programs to meet the changing needs and expectations of the community, patients, and their families.
- Supporting approved patient care projects or services.

All donations are fully tax deductible under the Income Tax Assessment Act.

Receipts are issued for all transactions.

Burnside Hospital Foundation Committee 2017-2018

BURNSIDE
HOSPITAL

Supporting Our
Hospital's Future

YOUR INVITATION
TO SUPPORT THE
BURNSIDE HOSPITAL
FOUNDATION
INVESTMENT FUND

You can be part of a lasting legacy in your community

The Burnside Hospital Foundation has established a long term Investment Fund for the sole future benefit of the Burnside War Memorial Hospital Incorporated.

Your gift can have a lasting impact for years to come!

Philanthropy has been a cornerstone of the Burnside War Memorial Hospital since it was created in 1944, when Otto von Rieben gifted Attunga and its 4.5 acre grounds to the people of Burnside to establish a community hospital. Intended as a lasting legacy to the men and women of the area who served their country in wars, the Burnside Hospital has grown and prospered over more than 60 years, becoming one of the most highly regarded private not-for-profit community hospitals in the country.

Major gifts, bequests, and donations to the Investment Fund are now invited.

Many of the first class facilities in our hospital now were only made possible by donations from past and present benefactors. Hundreds of generous people, clubs and businesses in our community have willingly invested in providing safe quality care for every patient, every time, at Burnside Hospital.

Since 1998, more than \$2 million has been donated for a wide range of equipment needs and building developments that keep Burnside at the forefront of patient care in Australia.

Now, it is time to invest in the hospital's future.

How will it work?

Our Investment Fund will produce annual income to support the hospital's needs, increasing over time as the fund builds, while also increasing the financial strength and stability of the hospital.

Annual income will be used to help fund vital medical and surgical equipment, for approved patient care projects, and to support building developments and refurbishments - like the recent upgrade of the Brian Fricker Oncology Centre.

The Investment Fund will support the hospital in maintaining its position as one of Australia's premier private hospitals, and build upon the value of this incredible community asset for generations to come.

The Burnside Hospital Foundation is responsible for building the fund through seeking donations, major gifts and bequests to benefit the fund.

An Investment Fund subcommittee - including an Investment Fund Manager and members with financial management expertise, and representatives of both the hospital board and the foundation committee - is responsible for managing the fund as an asset for the hospital.

An Investment Fund Policy, approved by the Board of Directors of the Burnside War Memorial Hospital Inc, outlines investment risk, asset classes and asset allocations to ensure that capital donated by the community will be securely invested for the future benefit of the hospital. The policy also includes strict rules on distributions to the hospital from either the corpus or from investment of the corpus, ensuring that the fund's use is regulated, balanced, and may only be used for approved purposes.

- YES!** I/we wish to make a gift of \$ _____ to the Burnside Hospital Foundation Investment Fund
- Please call me** – I would like to discuss a future gift or bequest with a representative of the Foundation
- Not at this time** - I won't make a donation to the Investment Fund now; please keep me on the newsletter mailing list
