HOSPITAL

Delivering  
excellence

# Welcome to Burnside Hospital's Maternity Service

To us, having your baby is more than just the birth - it's about your complete birth experience.

Burnside Hospital has been delivering babies for sixty years. We are renowned for our holistic approach to antenatal and postnatal care, our experienced midwives who go that extra mile, as well as our modern maternity facilities.

This reputation has established Burnside Hospital as one of South Australia's most popular private maternity hospitals with parents-to-be.

We understand that having a baby is one of the most exciting times of your life. We also understand that each birth is unique, and we are committed to providing individualised care that caters to your wishes. Our friendly, experienced midwives and support staff are dedicated to providing you and your baby safe, supportive, high quality care before, during and after the birth of your baby.

By choosing Burnside's Maternity Service, you have access to all of our pre and postnatal services, maternity facilities, and of course the wider services available at the hospital. Extra support and advice is available every step of the way, with flexible antenatal programs, in-house educational videos, ongoing breast feeding assistance and 24 hour telephone support for mothers.

Burnside Hospital's Maternity Unit provides comfortable, relaxed surroundings where your whole family can share in this special occasion.

Our spacious birthing suites are equipped with the latest medical technology, including wireless monitoring of mother and baby, multifunctional birthing beds, therapeutic tools and more. For that extra measure of safety, fully equipped theatres and a High Dependency Unit are on site, as well as a Special Care Nursery for babies requiring extra care. All of these services are available at Burnside 24 hours a day, seven days a week.

From beautifully appointed, fully equipped private rooms on the ground or first floor of the hospital, our midwives assist you in all areas of care for your newborn, ensuring you feel confident to care for your baby when you leave hospital. We welcome the active involvement of partners, who are welcome at all times in our Maternity Unit. Overnight accommodation is available for your partner or support person, and the first night following delivery is complimentary, with a facility service fee charged on a nightly basis thereafter.

Our care for you and your newborn continues after you leave hospital. Our Maternity Outpatient Support Services enables you to follow up with our midwives, who review how you are recovering, feeding, baby's progress and more.
